

PANUPONG YAPRADITH

SOFTWARE ENGINEER

Bangkok, Thailand | +66 99 119 2662 | yew@odds.team | github.com/supel2nova

PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience specialising in frontend development, with hands-on backend and infrastructure exposure across banking and capital-market platforms including TMBThanachart Bank and the Stock Exchange of Thailand. Skilled in React, Next.js and TypeScript, with practical experience in Node.js, Go, AWS, Docker and Kubernetes. Comfortable across the full delivery lifecycle — from UI implementation and API development through to CI/CD pipelines, automated testing and disaster-recovery infrastructure — with experience in regulated, high-availability environments where stability and correctness matter.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Go

Frontend: React, Next.js, TanStack Query, TailwindCSS, MUI, Ant Design, Responsive UI

Backend: Node.js, Express, Go, REST APIs, WebSocket

Cloud & DevOps: AWS (ECS, ECR, S3), Docker, Kubernetes, Helm, Nginx / ProxyPass, GitHub Actions CI/CD

Testing & Quality: Playwright (E2E), Unit Testing, K6 (Load & Performance Testing)

PROFESSIONAL EXPERIENCE

Software Engineer — TMBThanachart Bank (TTB)

2025 - Present

Bangkok, Thailand · Internal banking systems

- Develop and maintain an internal banking system for Deposit–Cheque processing used by branch and back-office staff.
- Maintain and refactor shared frontend libraries, improving consistency and stability across applications on the platform.
- Investigate and resolve production issues spanning both frontend and backend systems, working with business users to reproduce and verify fixes.
- Build unit tests and end-to-end automated suites with Playwright, cutting manual regression effort before releases.
- Contribute to code reviews and technical discussions to uphold code quality standards within the team.

Software Engineer — The Stock Exchange of Thailand (SET)

2024 - 2025

Projects: LiVE Exchange, LiVE Platform, SET Link, Listed Company Snapshot, Corporate Value Up

- Expanded scope from frontend into backend development and infrastructure, contributing across the full delivery lifecycle.
- Built a Disaster Recovery (DR) site using Nginx, ProxyPass and AWS ECS with a custom CI/CD pipeline, enabling failover for business-critical capital-market services.
- Implemented real-time AI-powered translation in Listed Company Snapshot over WebSocket, streaming low-latency output to end users.
- Delivered and maintained features across five public-facing platforms serving listed companies, investors and market participants.
- Worked with cross-functional teams to translate business and regulatory requirements into technical solutions.

Tech stack: React, Next.js, TypeScript, Go, AWS ECS, Nginx, Docker, GitHub Actions

Software Engineer — Food Bank

2024

- Conducted system load testing with K6 to evaluate production stability and surface performance bottlenecks under peak traffic.
- Optimised Kubernetes and Helm chart configurations for consistent, efficient deployments across environments.
- Reported performance findings back to the team to support release-readiness decisions.

Tech stack: K6, Kubernetes, Helm, Docker

Software Engineer — Inskru

2023 - 2025

Idea-sharing platform for teachers

- Began professional software engineering career, delivering frontend features on a live product used by educators.
- Worked within an existing legacy codebase, adapting quickly to established architecture and conventions.
- Improved maintainability of existing components while shipping new functionality alongside senior engineers.

Tech stack: React, JavaScript, TypeScript

EDUCATION

Software Developer Bootcamp — Generation Thailand

2022

Intensive full-time programme covering web development fundamentals and professional working practices

B.Eng. Industrial Engineering — Rajamangala University of Technology Krungthep

2011 - 2016

ADDITIONAL INFORMATION

Core strengths: Growth mindset · Adaptability & resilience · Fast learner & self-driven · Collaborative team player · Problem solving & critical thinking
